1 What Attributes Should Managers Have?

1. Strategic agility
2. Strong politically, politically savvy
3. They need to have business acumen
4. Strengths and weaknesses of a certain organization
5. They must be altruistic, selfless
6. They have to come up with instant motivation
7. If they're is a problem, they have to learn to rectify the problem
8. Interpersonal relationship
9. Detail oriented

If you have people behind you to support you, then you are an effective leader.

As Jeff Bezos says, "Your brand is what people say when you're not in the room".

Sometimes you don't need extrinsic rewards all the time - you need intrinsic as well.

No matter what managers are found, what gender they are, everyone needs managers.
